INSTRUCTIONS FOR THE COMPLETION OF DEVELOPMENTAL HEALTH STATUS INDICATOR FORM D2
DEVELOPMENTAL HEALTH STATUS INDICATORS 06 THROUGH 12

General Instructions:

A glossary of terms applicable to this form is presented in Section 5.1 of this document.

These are developmental indicators. Reporting is not required but States should make an effort to complete as much of each indicator as possible. Estimates are acceptable and are encouraged. Please explain all estimates in a footnote.   If the data for these indicators are not currently available, States should work towards building a future capacity for providing the data requested.

The purpose of this form, which contains 11 tables for 6 indicators, is to provide, annually, selected demographic data in the State.   Indicators 06, 07, 08, and 09 each have two parts (A and B). and indicators 10, 11, and 12 each has one part. The racial and ethnic population categories included in these tables are from the most current Office of Management and Budget guidelines.

At the top of each table [EXCEPT FOR THE TABLES FOR **DHSI 09A AND 09B**] enter the year for which the data is being reported and check the appropriate box to indicate if the data is from a State projection. For Health Status Indicators 6 through 8 the Reporting Year will be the same for parts A and B of each form. See specific instructions below for dating the data on tables DHSI 09A and 09B.

Specific Instructions:
